Miscellaneous.

Hear Ye! Hear Ye! Hear Ye!!.

THE subscriber having taken the agency for the sale of Burdict and Bartlett's Grecian Caoutchoug Oil Polish, is now prepared to furnish the article to store keepers at Manufacturer's prices.

This article is composed of neats foot oil and Gutta Percha, acting as a preserver of leather as well as polish. An article of this kind has long been needed, as every one knows that common blacking will not polish or oil over grease.

The attention of livery stable keepers, and those keeping carriages and harnesses, is invited to this article, as it is unsurpassed [illegible] venient for the use of livery stable keepers, and also smaller sizes for the use of everybody who wish to purchase the best blacking in the market.

UNDERTAKERS.

COFFINS and other funeral appurtenances.—The subscribers have on hand and will make at short notice coffins of every description of wood and finish; also robes, trimmings, &c., and if desired they will superintend funeral arrangements and furnish all articles connected with and used on these mournful occasions.

They have also a method of preserving a corpse for any desirable length of time, until friends and relatives can arrive from Europe or distant parts of our own country.

If required they can give the best of references as to their mode of attending to matters of this kind.

Orders for the whole or part of these arrangements are solicited, and will be promptly executed, with the utmost regard for the feelings of those concerned.

NEW MAP OF NEWPORT.—The subscriber has now nearly ready for publication an entirely new map of Newport Township, including a large part of Middletown.—Showing all the Island South of Coddington Cove, and from Castle Hill on the West, to Sachuest Point on the East. The whole made from recent surveys hitherto unpublished—It will be the only typographed map of the Township yet made, and is of sufficient size to allow the position of every house to be indicated, and the names given of all the land holders without the limits of the City.

The copy prepared for engraving, is now ready for inspection and corrections, as it is my wish to make it much nearer a correct map than any yet issued.

The price $5. The size about 36x44 inches Subscriptions will be received at 124 Thames street by CHAS. E. HAMMETT Jr.

LADIES' DELIGHT!
RELIEF COME AT LAST.

J. WISNER'S Washing Machine, Patented Sept. 26th, 1854, is a large tub with zinc fitted on the bottom, also on the under side of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands at the West within the past year, who pronounce it to be the best labor saver ever offered to the public. It has been tested sufficiently long to prove that when ever it has been used properly, it will tell a better story for itself than I can communicate. Give it a trial, and you will be entirely satisfied of its superior merit.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.

CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and [illegible]able consideration at the Patent Office.

Late Commissioner of Patents.

Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having [illegible]

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SEA AND SHORE.

BY C. H. WEBB.

The Sea is a stern old monarch,
Despotic as monarch may be,
And his cousin the Earth, from the time of his birth,
Has tribute paid to the Sea.
Stout pilots turn pale when he toys with the gale,
And ships bow their tall plumes down;
If my monarch, the Sea, in a moment of glee
But noddeth his foam-crest crown.

The Earth is a sullen old baron,
Morose as baron may be,
And he watches all day from his rock-tower gray,
For he feareth his cousin, the Sea.
His wealth is untold, red masses of gold
Lie hid in his treasure caves;
And my baron's breast is ever at rest,
Though it bears a burden of graves.

Oh, the Sea is a cruel old monarch,
As cruel as tyrant may be;
But of precious souls, more have been wrecked on the shore,
Than ever were lost at Sea!

MISCELLANY.

COVERDALE MARRIED

The Sequel and Conclusion of Harry Coverdale's Courtship.

[*Continued.*]

CHAPTER X.

THE END.

All things must come to an end. The world, we are told, will have its finale rung out on a trumpet peal. Life, we know, must have its termination, and every story its conclusion. We all dread ending, and yet we all seek for it—push on towards, as though we desired it—and so we do in some degree desire it, notwithstanding our dread. *Fines coronate opus* is one of the maxims wisdom has handed down. The end crowns the work. It does so sometimes with a crown of glory, sometimes with a crown of thorns, a crown of some sort at all events, and we all of us trust to gain the first, and to avoid the last. Whichever may be in store for us, we begin the end.

Years enough since the facts set down in the preceding chapters happened, have passed to leave their mark upon Harry Coverdale. He has grown stouter and less disposed to violent exertion. He hunts very little now, and thinks he shall give it up altogether; perhaps it is time, not so much because winter has begun to be busy amid his hair—leaving here and there a white streak, as because another Harry is in the field. A boy just shooting out of boyhood, with Harry's frame, and Alice's face, has just been asking whether he may not have the grey to ride next season. And Alice; yes that comely matron with whom time had dealt so lightly—no grey in her hair yet—nor wrinkles in her forehead, or crow's feet under eyes—no traces of disease (thanks to Italy) in her frame—that is Alice. She says that she is afraid of Harry hunting, "it is so dangerous." She is saying just the same of Harry the second now, as she used to do to Harry the first "in our young days," and a pair of soft eyes peep out over a doll's head from a soft little face, a face like that of Alice, and yet like somebody else too. Like Kate Marsden that was, we think, and a sweet girl's voice says, "Oh, Harry, you naughty boy, you want to break your neck." And then a veteran-looking little grey man with a crutch stick, who answers to the name of Captain Snawley, and who happened to be over at the Park that morning, puts in that boys must be taught to be brave and hardy, and for that purpose there is no sport so good as hunting, which is, next to war," a very veteran-like opinion, at which Alice frowns, and Harry the second draws himself up proudly, as much as to say, "well, war is hunting"—he's ready for any thing, and the soft eyes peep out again, and repeat "naughty boy," which leads to a game at romps, at which the doll comes to rough usage. It is settled though that Harry shall have the grey, and Mr. Coverdale does not think he shall buy another horse for himself, "just yet at all events." In fact, Harry *has* got another horse, a hobby-horse, which Alice pets from a conviction of her husband's great talents. He has received a request to stand for the County, and it is probable that after the next election, any one who sends him a letter, will have to add to the direction "M. P."

Old Mr. and Mrs. Hazlehurst are both dead. Time has not spared them—and the same tombstone, after the manner of tombstones, records some virtues they had, and some they had not, and none of their errors. Old Crane died before them, and Kate, who is almost as beautiful as ever (hers is a style of beauty which does not wither quickly) lives on in a proud unwilling widowhood—a widowhood she would gladly have changed, but Arthur Hazlehurst could not marry a woman who had "sold herself."—Kate is more reserved than ever, seldom throwing off her melancholy except when her god-daughter, Alice, calls forth a smile by a laugh, which reminds Kate of old times. Arthur Hazlehurst has changed more than any of the rest. It is said that he had an immense amount of law in his head—it is said that he has a vast number of wrinkles outside it. He is bent and thin, but he has got a silk gown, and a large practice, and it is whispered that when "a certain party" goes out, and another "certain party" comes in, the Solicitor-General-ship will be placed at his acceptance.—Arthur we dare say has forgotten all about love by this time, and become a confirmed old bachelor, but when he goes down to the Park, (he never goes when Kate is there) and Kate's name is mentioned, there comes a look on the hard withered face of the lawyer which tells you that memory will rise up sometimes.

The Daily News.

TUESDAY MORNING, JAN. 17, 1860.

The Speakership.

Day after day, and night after night, the Sherman, the Republican candidate, has for a long time gained, on an average, about one vote a week, until he has now, for a week or so past, been within three of an election, where his gains have stopped, and now we have the satisfaction of placing before our readers about every morning, under the Congressional head, the last ballot for Speaker, announcing, with a slight variation of words, the same old story, that Sherman is within three votes of an election. How much longer this farce will be played, we are unable to say. Should Mr. Sherman, or any one else, be actually elected during the preasent session of Congress, on the principle of the old wolf story, it is doubtful if the first, or even the second, or third, announcement of that important fact by *the press* of the country will be believed by the people. A Washington correspondent of the *Boston Atlas* gives the following very natural anecdote in a recent letter :

> "I was much amused with the story of one of the Western members, who is, by the way, one of the clearest-headed and large-hearted men here. Said he, 'I declare to you I have got so used to shouting out "John Sherman" when I am spoken to, that when the waiter asked me this morning at table what I would have for breakfast, I told him 'John Sherman!'"

Appropos the above, it may not be amiss to give a correspondent's description of the most important personage now brought before the public by this exciting contest in the Halls of Congress :

> "An accurate observer, who was present on a late occasion when JOHN SHERMAN, the Republican candidate for Speaker, addressed the House, describes him as a tall, spare man, with deep-set grey eyes and brown hair, courteous and dignified in his manners, and cool and deliberate in his address, though he may be but smothering the fire within—for with all his self-possession, there are the unmistakeable marks of a nervous temperament—and when we consider the long trial and severe attacks from his opponents to which he has been subjected, and the exasperating state of affairs in which he is compelled to bear so prominent a part, we must believe that every man possessed of true honesty and candor, will accord to him a hearty respect, no matter what their political differences may be."

Those who have known Mr. Sherman longest and best, state that he is one of the most indefatigable and industrious members of either House.

It is stated that Peck, the defaulting State Treasurer, estimates the amount of State funds involved in his business operations at no more than $40,000 or $50,000, and the checks and drafts given by him, for which his bondsmen are not liable, at about the same amount.

A company has been formed in Washington for manufacturing wine, with a capital of $100,000. The Hon. Amos Kendall is the principal stockholder. The company contemplates using the wild grape.

A subscription to relieve the pecuniary embarrassment of the Pope has been commenced in this country, and two devoted Catholics of Baltimore, Md., have given $350 to the object.

Another Fire!

Yesterday morning, at 7 3-4 o'clock, our streets again resounded with the cry of fire. The firemen and others passing down street, we "fell into the ranks," and soon reached the scene of conflagration, which proved to be in the building on the south-west corner of Thames Street and Stevens' Wharf.

When first discovered, the smoke was passing out from the roof, near what appears to be the union of the roof of the Commercial Bank building, and that of the dwelling of Robert R. Carr, Esq. Soon after, smoke came out freely all around the eaves of Mr. Carr's house. The fire being located internally, within a large wooden building, and this building being situated in as dense a portion, probably, of the city, as any, and the wind blowing fresh from the West, so as to drive what fire there was into the town; all of these circumstances, coupled with the fact that with a single exception, no water could be obtained in the immediate vicinity, gave sufficient reason for the gravest fears. Our prompt firemen were soon on the ground, and getting the "hang of the school-house," soon "said their lessons" in the science of Natural Philosophy, making many and beautiful illustrations in Hydraulics. The effect of these copious currents of water, was more beautiful, if possible, than the illustrations, for they soon changed the entire appearance of the fire and its probable effects, confining it to its first locality.

The damage to both estates by fire, is estimated at $300, and the damage by water from $200 to $500 more, making the total loss, not less than $600; and it may reach $1000. The difficulty in deciding this last particular, arises from the fact that nearly all the water used was salt, and this destroys more generally and effectively than fresh. And when our engines work, it is no child's play, as hundreds saw yesterday morning. At the time we left, the water was running out on two sides of Mr. Carr's house—and probably on the third also but we did not see it—in one unbroken sheet, through the clapboards, and an old salt, probably forgetting his whereabouts, and from force of habit, was bailing out the third story front room, much to the discomfort of the crowd on the sidewalk, and to the great damage of sundry dickeys and tiles. This last property was insured in the Domestic Insurance Company.

There was yesterday, great diversity of opinion upon the street, as to the origin of the fire, whether it took place upon Mr. Carr's premises or those of the Bank. As usual, this difference was freely discussed, and parties were rapidly formed, to one or the other of which the people were soon attached. We think the matter will be clear to any one who will visit the premises and examine closely the marks left by the fire. But independent of that, the testimony of those who first discovered the fire is conclusive. It was discovered in a closet over the Bank, within that part of the building belonging to the Bank. It had probably been smouldering and stealthily creeping all night, up into the garret, and when discovered, was just spreading through that part of the building. It is difficult to apportion the loss between the two parties, in as much as the entire garret of what [illegible] are completed.

As we passed through the crowd, frequently and warmly were spoken the just praises of our brave firemen. And it is a great credit to them, that there was so little damage done by the "all-devouring element."

P. S. Since the above was written, we learn from the Directors of the Bank, that the title to the building occupied by them, includes also the garret and roof over the banking house. The furniture of Mr. Carr was largely and badly injured, and no insurance; but both buildings were fully insured in the Providence Mutual.

A CAUSE OF FALSE FIRE ALARMS.—We learn that on Saturday night last, an alarm of fire proceeded from Mr. Barber's barn on Frank Street, by which several families were aroused in the immediate neighborhood, and that the alarm, which proved to be false, proceeded from a drunken man who had either fell from the loft and cut his head seriously, or been wounded by the kicking of a horse. On inquiring, it was ascertained that this man was picked up by the police in one of the numerous rum holes in the lower part of the city, and by his solicitation placed in Mr. Barber's barn instead of being carried to the watch-house as he should have been. If the solicitation of such individuals has heretofore, or is likely hereafter, to cause the police to waver from their evident line of duty, when in charge of such persons, ought not this false alarm to awaken us to the fact that as long as such plans for the shielding of individuals are adopted, not only the public peace, but its safety, is endangered?

☞ Yesterday forenoon, Catherine Welsh, an Irish woman, supposed to be insane, was arrested upon Spring Street for assaulting Rev. P. F. Glennon, of Saint Mary's Church. The woman, we are told, has been a source of much trouble to the police, and frequently has disturbed the services in the church.

As Marshal Seattle and officer Carpenter were very politely giving the woman the benefit of their services in walking to the lock-up, she suddenly manifested an unusual dislike to her gallants, and made a most determined effort to rid herself of their company. His Honor undertook to bring the influences of his well-known blandishments to bear upon her, endeavoring to sweetly draw her along. He began—"My dear good woman, why can't you"—but alas for posterity, the conclusion of this master-piece of persuasive eloquence can never be known. For when His Honor had so far proceeded, he was suddenly and unceremoniously interrupted by his coming into contact with the pedal extremities of the said Catherine, whereby the current of language ceased to flow. The prisoner will be examined to-day in the police court.

☞ Remember the lecture by Mr. Hunter this evening, on Africa, at Aquidneck Hall, and do not fail to attend. It is in aid of the Lawrence sufferers. Tickets can be obtained at Tilley's, Hammett's, Ward's, and Barber's.

One of the most prominent South Americans in Congress says that the Democratic party will continue to exist just so long as men are born in a state of natural enmity against God—that it is coeval with original sin, and will break up when then Millenium comes.

NEW MUSIC.

Oliver Ditson & Co., have published the following music :

Upidee—arranged by H. C. Spaulding. All graduates of Colleges know that there are in the Universities, both of this country and Europe—particularly of Great Britain—certain customs and articles, which have been handed down for many years from class to class, until they have become invested with a sort of reverence. In almost all Colleges, among other articles so passed, is one College song, the origin of which is lost in its long descent. Recently Yale and Cambridge students have induced, by pecuniary consideration, publishers to print and publish the songs peculiar to those Universities. The song above named—"Upidee"—is a "College song and chorus, as sung by the students of Harvard College." The author, at this late day is unknown, neither are the words of the song in use, at the *Alma Mater* given. Such of the *Alumni* as remember the words will probably agree, that the reputation of old Harvard will not be injured by the omission. The words sung in the chorus by all the students at the close of each stanza, are printed with the music. The latter possesses a simple, lively, pleasing melody, and harmony in good keeping.

Lift up thine Earthly Gaze—Volta la terred—a Soprano rondo, written by Verdi in his "Masked Ball." For a good singer, this will prove to be a good exercise, and when well sung, with a good player on the accompaniment, will give considerable satisfaction.

Charming Sorrentina—Geo. Sinley, in this composition, has given a love song in the form of a waltz, with a pleasant melody, just difficult enough to make it interesting, and an accompaniment, simple but well adapted.

The Soul of Music's Gone—by the same author as the preceding. Mr. S. here gives us a delightful song, wedded to beautiful music. The melody and harmony, as the words indicate, are slightly melancholy but not difficult, and will be remembered for years.

Bank of Violets—Solo and quartette by Sir John Stevens. It is sufficient to say of this, that it is one of those old, mellow, English compositions, that have stood successfully the tests of popularity for over 60 years.

Circassian Polka—for four hands, by Chas. D'Albert. Another excellent composition, from this popular English author.

New Method for Melodeon, &c.—con-ed" was written, stands among the best writers for organs and reed instruments now living in the United States; and he has made a good book. The selections will be found to be good and convenient.

The above are for sale at T. W. Wood's Music Store.

FOUSEL'S PABULUM VITÆ,
THE GREAT FRENCH REMEDY,

possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and its most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs, or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendations and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their *to the unequalled virtues of this great discovery.*

This preparation, by chemical analysis, was proved to be free from opium or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are efficiently used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to Inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., *State Assayer*,
16 Boylston Street, Boston, Dec. 19, 1857.

TESTIMONIAL from the Assistant Superintendent of Health :

BOSTON, Oct. 5, 1859.

Sir:—It affords me great pleasure in recommending to those troubled with Pulmonary Complaints the use of Fousel's Pabulum Vitæ; and my own experience has shown that for Coughs and Colds it possesses qualities of great merit, and I would most cheerfully recommend its use to those troubled with the above complaints, so common to our climate.

Respectfully yours,
(Signed). DANIEL B. CURTIS,
To F. J. LAFORME. Room 12, City Hall.

F. J. LAFORME, Esq.:

Dear Sir—This may certify that I have used *Fousel's Pabulum Vitæ*, and I consider it the best article that I have ever used for pulmonary complaints. I have given the above named a fair trial, and with confidence advise all that are afflicted with colds or pulmonary complaints to try it.

These splendid engravings are from original paintings by Hicks and *engraved on steel* in the highest style of Art, They are each 25x35 inches, *each* CONTAINING SIX SQUARE FEET. ☞ The editor of the *New York Observer* says:—"These engravings are genuine works of art—the likenesses are admirable. The portrait of Mr. Everett will take precedence of all others."

DR. MATTISON'S REMEDIAL INSTITUTE,

—FOR THE TREATMENT OF—

Special Diseases,

No. 28 Union St., Providence, R. I.

Circulars giving full information with references and testimonials, sent by mail. Also a Pamphlet on Diseases of Women with observations on Private and Chronic Maladies generally, sent free by enclosing a stamp to Dr. R. N. MATTISON as above.

Dr. M. is a thoroughly educated physician of nineteen years practice, giving his whole attention to the above named diseases. Persons at a distance, therefore, having any important and difficult case in this specialty will save much time and expense by applying either personally or by letter, to the REMEDIAL INSTITUTE.

N. B.—Accommodations for patients from abroad wishing to remain in the city for a short time under treatment.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the *choice of a physician.* And first, *let all quacks, impostors and humbugs alone.* If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a *specialty*, for no physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as succesfully as one of the same ability who makes such diseases a *specialty*, and devotes his whole attention to them. Educated physicians hitherto have stood aloof from making private diseases a specialty, and hence they have been monopolized by quacks.—The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make *Private Diseases* a specialty, and yet their fame is an enviable as it is world-wide. It is in fact the only remedy for one of the most heinous and destructive systems of quackery in private diseases as practiced in all the larger cities throughout the country.—But to return I said let quacks and impostors alone. Their advertisements fill the newspapers and are well calculated to deceive the inexperienced, made up as they are of the most extravagant *pretensions*, but without a shadow of *evidence* of the truth of what they say. Advertising in itself is no sin, but *deceptive* advertisements are an abomination; and no advertising physician is entitled to *any confidence whatever* who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a specialty which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy, and permanent cure. H. N. MATTISON,
a11 d w t t No. 28 Union st., Prov. R. I.

Blood Food!

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from which, Dr. Bronson was restored to perfect health, Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Coughs, Cold, Head-ache, Palpitation of the Heart, Loss of appetite, or pain in the side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Dibility*, or your *sleep is broken and disturbed,* if your *Spirits are Depressed* or your *Organs relaxed*, you will find in this an unfailing remedy, by commencing with *ten drops.* If your *Liver* is torpid or disease in any manner whatever *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints and Weakness*, the sufferer, after trying other remedies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles* The "BLOOD FLOOD" is effectual in all cases of *Eruptions, Salt Rheum, Scrofulas* and other like complaints, *Pale and emaciated children and adults* are immediately benefited by its use. It gives strength to the body and color and beauty to the skin. *Physicians of all schools* are using it with wonderful success. For full directions, see circulars.

Price $1 per bottle.

Mothers!

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in Infantile complaints to prescribe for them. Second—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz:

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsion or fits, we earnestly recommend you to lose no time in procuring it. Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 36 Maiden Lane, New York.

THE
GREAT WONDER
OF THE NINETEENTH CENTURY.

PROFESSOR WOOD'S HAIR RESTORATIVE.

Says the St. Louis (Mo) Democrat: Below we publish a letter to Dr. Wood of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums nor useless puffery from the press:

BATH, Maine, Jan. 20, 1859.

Prof. O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and *face*, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements, I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at you service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, the Rev. J. K. Bragg, is a minister in regular standing and pastor of the Oxthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER

BROOKFIELD, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming gray, to its original color, I have used no other article with anything like the same pleasure or profit. Yours truly,
J. K. BRAGG.

The Restorative is put up in Bottles of 3 sizes, viz: large, medium and small; the small holds 1 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.

THE LAWRENCE CALAMITY.

LAWRENCE, Jan. 15.

The excitement occasioned by the recent catastrophe, which had somewhat subsided last evening, has been increased to day. It appears owing to the fact that all attention being diverted from business, the public mind recurs to the horrors of the affair. The subject has been abroad through all the town, and it has furnished a theme for the pulpits, filled with suggestions, lessons and warnings. The town has been filled with visitors since early morning. The streets are filled with flying sleighs, and the hotels are over-run with custom. A larger number are viewing the scene of disaster than during the three days previous.

The number of bodies exhumed on Satur ay was thirteen. These, like all which have been recovered since the fire, were burned beyond the possibility of identification, save through the medium of patches of dress and articles which chanced to be found upon them.

The work on the ruins, which had actively progressed all day, was postponed Saturday evening at dark.

Five bodies have been recoverd to-day. They were those of Lafayette F. Branch, Ellen Ahern, Jane Thomas, Catharine Harrigan and Ellen Murphy. Jane Thomas was found outside of the wall. The body was not burned at all, but it was terribly jammed and mutilated. It was identified by a ring on her finger, and by her hair and dress.

Seventy-two dead bodies, so far, have been brought to the City Hall. Fifty-two have been recognized or identified by something upon their remains. Twelve not identified were buried on the second day after the accident, and nine still remain in the dead room.

A complete canvas of the city was made on Friday, and resulted in the collection of the names of between six and seven hundred of the living, missing and dead of those who worked in the mill. The figures of the *Lawrence Sentinel*, with those added which were found on Saturday and to-day, give the following results:—Dead, 117; missing, 89; injured severely, 119; slightly, 209.

HOUSE.

Mr. Smith, Dem., of Va., spoke in favor of Mr. Clark's resolution, and in condemnation of the Helper book. He was responded to by Mr. Bigham, Rep., of Ohio, when a heated crossfiring between them took place. A general discussion then ensued, until Mr. Pennington, Rep., of N. J., moved the adoption of the plurality rule on the vote for Speaker, to take effect on Monday next. Several points of order were raised, but no question was taken, and the House adjourned.

AYER'S SARSAPARILLA.

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases, Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints.

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis, and Syphilitic Affections, Mercurial Diseases, Dropsy, Neuralagia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from impurity of the blood.

HOWARD ASSOCIATION.

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœ, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onaism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

A CARD TO THE LADIES.

DR. DUPONCA'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. NEW AGRICULTURAL SETTLEMENT.

TO ALL WANTING FARMS, A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD, NEW JERSEY.

An old estates consisting of several thousands of acres of *productive soil* has been divided into Farms of various sizes to *suit the purchaser.* A population of some *Fifteen Hundred*, from various parts of the middle States and New England have settled there the past year, improved the places, *and raised excellent crops* The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables*; IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement.* The result has been, that within the past year, some *three hundred houses* have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may preceive from its location is the

BEST IN THE UNION.

Production bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settlers has many advantages! He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in *a settled country where every improvement of comfort and civilization is at hand.* He can buy every article he wants at the cheaper price, and sell his produce for the highest, (in the West this is reserved,) he has schools for his children, *divine service*, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown.—The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do! They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvement and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, THE RAIL ROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THIRTY YEARS.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, *which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business* could be carried on in the place and market to good advantage, also cotton business, and manufactories of *agricultural implements: or Founderies for casting small articles.* The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from $100 and upwards.

The *Hammonton Farmer* a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid Route to the land: leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7 1-2 A. M., or 4 1-2 P. M. Fare 90 cents.—When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. THE CHRISTIAN LITURGY.

ELEGANTLY bound in embroidered morocco, gilt edge, price 75 cts. For sale by C. E. HAMMETT Jr.

The Liturgy of the Church of America now offered to the Public, is drawn from various religious writings, and breathes the spirit of the Bible.

The Forms of Adoration and Petition, and its summary of Christian faith and Christian doctrine, are intelligible and plain. Its Catechism is pure, and beautifully adapted to the comprehension of young minds—enlightening without confusing them—and preparing the way for holy thoughts and true religion.

The work throughout is well arranged, and of a character to demand the close examination of *new congregations* of faithful men proposing to unite and form themselves into a visible Church of Christ.

The religious feeling which pervades the Liturgy of the Church of America, and its freedom from—what is too common in liturgical and extemporaneous prayers—an attempt to make the devotions of the Church a means of indoctrinating the worshippers in a sectarian creed, is sufficient to recommend it to attention.

But the Public are particularly called to notice the holy object which it has in view. The purpose of the Church is to provide a Liturgy which shall comprehend those doctrines, and those only, which are essential to guide the mind in a right worship of God. It is obvious that men who differ as to the origin of sin, or as to the precise nature of the atonement, may nevertheless equally love God, and may be alike grateful to him for his mercy, and desire his approval, and seek his will, and adore his infinite perfections. They may differ on many theological questions, and yet may have the same sentiments of devout trust, and reverential gratitude, and may equally feel the need of divine help. If they may thus agree in what is essential to devotion, why may they not unite in religious worship? If they will abstain from obtruding into the act of worship those theological speculations which have no necessary connection with it, why may they not bow together before that God which they all adore?

The Liturgy of the CHURCH OF AMERICA does not profess to teach a creed, but to give expressions to those feelings which should be in man's heart when he looks up to God. It would leave the theological questions on which sects divide to be settled by each individual in his own way, while it would draw all Christian people together, in the sentiment and offices of devotion.

The Christian Liturgy, published in 1847, for the CHURCH OF AMERICA, is based on the Book of Common Prayer used by the Episcopal Church, or Church of England, in this country; much is added to the devotional part, and more substracted from the doctrinal part, and it approaches considerably to the Chapel Liturgy published in 1785.

Heads of families, and teachers of religion proposing to minister the Gospel to the numerous societies of Christians among us, are solicited to examine this book with care, and to accept or reject it according to their individual judgments. And it is respectfully suggested to those who approve of its design, to read the several services therein put forth, on all occasions where their hearers are of different religious creeds, or of antagonistic opinions, as by so doing their labours will tend to promote peace, good will, and brotherhood, and greatly contribute to the usefulness of the Church of America.

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them—Capital Prizes of from $20,000 to $40,000 head their schemes—with Tickets at One Dollar,—$100,000 Capital Prizes are offered, Tickets $5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put it down for a certain fraud.

☞ All orders addressed to France, Broadbents & Co., Wilmington, Del., will meet with prompt attention, and the printed official drawings sent as soon as over.
